

Westerly Fire Department

Plan Review Guidelines

1. Three (3) complete sets of plans.
2. Describe all work to be completed.
3. The fee for plan review must be paid before the plans will be approved. The fee schedule is available in the fee schedule file.
4. Any changes during construction must be approved by the fire department for code compliance.
5. A final inspection for code compliance is required prior to a certificate of occupancy being issued. The installers of fire alarm systems, sprinkler systems, and any other suppression system must make an appointment with the fire department for acceptance inspections.
6. All changes must be documented with as built.
